

## Members Make the Difference!

The Earlville Opera House was founded in 1972 as a not-for-profit, volunteer-based community service organization promoting the arts in rural Central NY by offering programs of cultural, educational & historical significance while preserving and restoring the architectural and historic integrity of the EOH, a unique second-story theater constructed in 1892.

Once the stage to Vaudeville acts, three-penny operas, traveling medicine shows and silent films, and once closed for almost two decades, the Opera House was revitalized by volunteers and named to the National Register of Historic Places in 1974.

Won't you join us in preserving the legacy of the Opera House and ensuring its longevity for future generations to come? Become a part of the EOH family now and include yourself in preserving history through support of the arts!
