Williams Road is a three piece roots band from the rolling hills of central New York. Their sound is a little bit of Bakersfield country with a mix of Americana. The band's unique songwriting represents life in the rural setting they call home. Pushed by strong harmonies and acoustic guitars at its core, add violin, electric guitar, and the pedal steel, and there is Williams Road. The group's influences include, Lyle Lovett, Tom Waits, Steve Earle, and some of the good old boys of country long gone.

Blaine Holcomb grew up in Hamilton, a small rural town in Upstate New York, and from a young age, he loved singing along to country radio. Blaine began playing guitar at age 11 and his passion for traditional country music only grew stronger from there. By his early teens, he was already performing at local venues, singing with friends, and with a band he started while in high school.
